

VACUUM EXCAVATION TRUCKS CATALOGUE

EXPERIENCE THE WORLD-CLASS DIFFERENCE
WITH LIGHTNING-FAST DELIVERY

STG BUILT **VACUUM TRUCKS EMBODY THE AUSTRALIAN SPIRIT, SETTING THE BENCHMARK IN THE INDUSTRY FOR QUALITY AND EASE OF USE.**

Their compact, heavy-duty vacuum system operates at maximum efficiency, allowing the operator to load and unload slurry promptly. Our vacuum excavation trucks are manufactured with the user in mind – all our variants boast a longer life cycle and lower energy consumption whilst maintaining the commitment to quality the industry expects from STG. The included spoil tanks are fully hot-dip galvanised, ensuring a clean surface for repeated use. The vacuum feature can also remove and recover wet and dry materials such as fine powders, silt, solids, liquids, slurries, and thick sludge.

Our combo vac truck is truly multi-use and can be used in a wide range of Australian conditions:

- Non-destructive digging
- Drilling mud recovery
- Pipeline locating

VACUUM EXCAVATION TRUCK 4X2 - HDV3000

With over 30 years of experience STG has become a market leader in designing and manufacturing vacuum trucks across Australia. We currently have 3 depots across Brisbane, Sydney and Melbourne but can supply vac trucks for sale across Australia including Brisbane, Sydney, Melbourne, Adelaide, Perth, Darwin and Hobart. All of our vacuum excavation trucks come with no rust guarantee and all available on competitive finance options.

Our 4,500L Vacuum trucks are purposely built for non destructive digging, underground service locating and the removal of dry and wet materials. Being 4,500L the vac truck is perfect to be used on small to mid size construction and residential projects.

FEATURES:

- 3000L (792 gal) spoil capacity vacuum module
- 2 x 1000L (2 x 264 gal) rotational moulded plastic water tanks
- Fully hot dipped galvanised spoil tank, No More Rust
- Caterpillar industrial engine
- Robuschi RB65 air injected blower - 1000 CFM, 28" HG
- Hydrant fill point for water tanks and top opening for fill
- Gerni Hose & Reel

OPTIONAL EXTRAS:

- Fully hydraulic STG Global suction boom
- Jetting unit
- Onboard truck scale
- Rear arrow board
- Full hydraulic drive (replace CAT engine)

STG GLOBAL SUCTION BOOM

VACUUM EXCAVATION TRUCK 4X2 & 6X4 - HDV4500

The 6,000L vacuum excavation truck comes with a range of standard features. There are also optional features available to customise for your needs.

When purchasing from us you can be assured that our vac trucks come with no rust guarantee, customised with your branding and colouring, along with competitive finance options if required. Our 6,000L vacuum excavation trucks comes with an option of either 6 x 4 truck or an 8 x 4 truck.

FEATURES:

- 4500L (1188 gal) spoil capacity vacuum module
- 2 x 1000L (2 x 264 gal) rotational moulded plastic water tanks
- Fully hot dipped galvanised spoil tank, No More Rust
- Caterpillar industrial engine
- Robuschi RB65 air injected blower - 1000 CFM, 28" HG
- Hydrant fill point for water tanks and top opening for fill
- Gerni Hose & Reel

OPTIONAL EXTRAS:

- Fully hydraulic STG Global suction boom
- Jetting unit
- Onboard truck scale
- Rear arrow board
- Full hydraulic drive (replace CAT engine)

STG GLOBAL SUCTION BOOM

VACUUM EXCAVATION TRUCK 6X4 & 8X4 - HDV6000

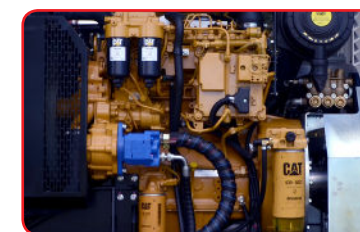

A jetter and vacuum truck is a perfect combo to add to your fleet for all non destructive digging. Our jetter will provide you with power to safely blast through any blocked drains, pipes and cut through any debris or tree roots. While our 6,000L vacuum truck provides you with enough capacity to vacuum out debris, water and roots that the jetter has loosened and dislodged.

FEATURES:

- 6000L (1585 gal) spoil capacity vacuum module
- 2 x 1300L (2 x 343 gal) fully hot dipped galvanised side saddle water tanks
- Fully hot dipped galvanised spoil tank, No More Rust
- Caterpillar industrial engine
- Robuschi RB105 air injected blower - 2400 CFM, 28" HG
- Hydrant fill point for water tanks and top opening for fill
- Dual Gerni Hose & Reel
- Fully hydraulic STG Global suction boom

OPTIONAL EXTRAS:

- Jetting unit
- Onboard truck scale
- Rear arrow board
- Full hydraulic drive (replace CAT engine)

CAT MOTOR

REMOTE

VACUUM EXCAVATION TRUCK 8X4 - HDV8000

The most powerful yet efficient and versatile vacuum excavation truck in the market is our 8,000L unit. Designed and manufactured for the Australia conditions our crown jewel of a vac truck is your ideal purchasing choice. This vacuum unit is a serious unit for all non destructive digging, vacuum excavation and underground service locating.

FEATURES:

- 8000L (2113 gal) spoil capacity vacuum module
- 2 x 1700L (2 x 449 gal) fully hot dipped galvanised side saddle water tanks
- Fully hot dipped galvanised spoil tank, No More Rust
- Caterpillar industrial engine
- Robuschi RB105 air injected blower - 2400 CFM, 28" HG
- Hydrant fill point for water tanks and top opening for fill
- Dual Gerni Hose & Reel
- Fully hydraulic STG Global suction boom

OPTIONAL EXTRAS:

- Jetting unit
- Onboard truck scale
- Rear arrow board
- Full hydraulic drive (replace CAT engine)

JETTING TRUCK 8X4 & 10X4 - HDV6000 & HDV8000

Combining an 8,000L vacuum truck and jetter provides you with a powerful and versatile unit which can work efficiently for all your non destructive digging needs.

The jetter is designed to safely blast through even the hardest of blocked drains, pipes and cut through any debris or tree roots. While our large 8,000L vacuum truck provide you with enough capacity for even the largest construction and mining sites to vacuum out the debris, slurry, water and roots that the jetter has loosened and dislodged. This is why we call it a perfect combo which will save you time in completing the work, money as you would have to have two different pieces of equipment to do the job.

FEATURES:

- 6000L (1585 gal) spoil capacity vacuum excavation modules or HDV8000 8000 ltr (2113 gal) spoil capacity vacuum excavation modules
- 2 x 1700L (2 x 449 gal) fully hot dipped galvanised side saddle water tanks
- Fully hot dipped galvanised spoil tank, No More Rust
- Caterpillar industrial engine
- Robuschi RB105 air injected blower - 2400 CFM, 28" HG
- Jetter unit
- Hydrant fill point for water tanks and top opening for fill
- Dual Gerni Hose & Reel
- Fully hydraulic STG Global suction boom

OPTIONAL ACCESSORIES FOR JETTER TRUCKS:

- Onboard truck scale
- Rear arrow board

VACUUM EXCAVATION TRUCK TRI-AXLE ADR COMPLIANT SEMI-TRAILER HDV16000

Here at STG, we like to push the boundaries and with 3 years of extensive R&D we have developed our biggest vacuum truck yet!

Introducing the 16,000L Vacuum Semi Trailer which has been designed and built for any additions here in Australia or anywhere across the world. With its large capacity and versatility, the 16,000L semi trailer vac truck is perfect for all your large hydro excavation jobs as it spends more time on site and less time travelling to waste stations.

When looking at the competition our 16,000L vac semi trailer packs a punch as it was built for durability and reliability.

FEATURES:

- 16000L (4225 gal) spoil capacity vacuum excavation semi-trailer
- 4 x 1250L (4 x 330 gal) fully hot dipped galvanised side saddle water tanks
- Fully hot dipped galvanised spoil tank, No More Rust
- Stand alone unit - can also be worked when unhooked from prime mover
- Caterpillar industrial engine
- Robuschi RB105 air injected blower - 2400 CFM, 28" HG
- Hydrant fill point for water tanks and top opening for fill
- Dual Gerni Hose & Reel
- Fully hydraulic STG Global suction boom

OPTIONAL ACCESSORIES:

- Reverse camera
- Onboard truck scale
- LED worklights
